

A district council of the Urban Land Institute

Harbor Park Pavilion: Reconnecting the Waterfront

In support of the Boston Harbor Islands National Park Area and the Island Alliance, join ULI Boston and ABC May 19 to hear the announcement of the Harbor Park Pavilion National Design Competition winners. Cash awards will be presented during the program. You also will have the chance to view the 65 competing entries.

Special thanks to the Boston Society of Architects and the Massachusetts Turnpike Authority for their support of this project.

This public pavilion will be the first building constructed on the Greenway, forging an important connection to the Harbor Islands. Once completed, it will serve as a signature entryway into the city.

The Pavilion also will set the tone for future Greenway developments and become a pioneer in the use of 21st Century technology along this two-mile ribbon.

Discussion topics include:

- Harbor Park Pavilion: A gateway to the islands.
- Reconnecting the waterfront: The city's Crossroads initiative.
- Developing the Greenway: The Artery Business Committee's Edge Study.
