USDA, CSREES

## TOPICS WILL INCLUDE:

- Environmental and economic benefits of low impact development (LID)
- Latest findings on performance and maintenance of LID practices in cold climates
- Evolving stormwater requirements at the federal, state and local levels and how LID designs can meet permit requirements in New Hampshire, Maine and Vermont
- LEED and the role of LID
- A vendor fair featuring LID technologies and services
- Choice of workshops on day two: LID Design Practicum, UNH Stormwater Center Tour, or Landscaping at the Water’s Edge

Porous vs. traditional pavement (Vermont)
